

RESPIRATORY INFORMATION IN SPINAL CORD INJURY GBI

Ventilation and Secretions; We Be-Lung Together.

FRIDAY 8TH MARCH 2024

VENUE:
THE LION QUAYS
HOTEL AND SPA
MORETON OSWESTRY
SY11 3EN

Aim

This Conference aims to explore the latest research evidence and clinical reasoning in the respiratory management of spinal cord injuries and the interplay between ventilation and secretion management.

Topics to include

Pharmacological management of secretions,
Pathophysiology,
Aero-digestive function,
Ventilation and weaning,
Commissioning

Target Audience

This conference should be of interest to multi-disciplinary groups working within Spinal Cord Injury Centres, Trauma Centres and other hospitals with an interest in the respiratory management of acute or chronic spinal cord injured patients.

RISCI aims to review & improve the respiratory management of people with SCI at each level, from the immediate time period post injury, across the rehabilitation journey through & beyond discharge to lifelong management. We aim to provide a professional forum for discussion & to facilitate research & audit with a respiratory focus

Registration

email: rjah.risci@nhs.net

£90 per registrant (inclusive of lunch, refreshments and writing material),
£50 virtual attendance

Closing date for registration 2nd February 2024
